

How can Palsgaard help you live up to customer expectations?

With customer expectations shaped by religious, environmental, health and ethical concerns, food producers must provide clear assurances about how their products are made and what they contain.

That's why we provide full QA certification and compliance documentation for every ingredient and batch – **helping you ensure transparency** around halal or kosher status, allergen content, and ethically or responsibly sourced raw materials.

&

57 palm-free
oil products
in our portfolio

&

92% of all Palsgaard
products halal and kosher
certified

Non-GMO
certification
for all ingredients we use

We aim to help you

create solutions that live up
to end-consumer demands
